

Destination NSW Westpac Tourism Expenditure Monitor

RESULTS FOR PERIOD
February 2021

Report Overview

This Monitor has been developed in a collaborative partnership between Destination NSW and Westpac. It will ultimately boost our State's ability to attract more visitors by improving our understanding of how people spend money when they travel throughout NSW. This Monitor should prove particularly beneficial for tourism bodies and operators in rural and remote areas of our State, and assist in ensuring we remain Australia's number one tourist destination.

This Monitor is designed to complement the National Visitor Survey, which is published quarterly by Tourism Research Australia. The Monitor data is reported by Tourism Region (geographical areas managed by the Commonwealth Government for research and reporting purposes) and provides top-level monthly reporting on tourism expenditure in NSW, including:

- The number of visitors to a region – defined as, those who reside greater than 50km from the region;
- The number of transactions undertaken by visitors; and
- The value of visitor spending.

In providing greater understanding of tourism expenditure throughout NSW, this Monitor will be pivotal in benchmarking performance, identifying trends and highlighting opportunities for tourism growth.

This report includes information for the period October 2020 to February 2021 including monthly data and quarterly time-series data. All data is de-identified and aggregated and it is managed securely and responsibly in order to deliver this Monitor. The appendices in this report includes guidance on how to interpret information in this report.

Appendix: How to Read Tables Terms & Conditions

DESTINATION NSW WESTPAC
TOURISM EXPENDITURE MONITOR

RESULTS FOR PERIOD
February 2021

How to interpret tables

The tables below are to be used for **explanatory purposes only**.

Section 1: Regional Summary

Visitation Metrics By Tourism Region - A high level look at visitor expenditure and relative metrics for the Tourism Region.

NSW Tourism Region	Visitation Count ('000)	Volume Transactions ('000)	Value Spend (\$'000)	Share of visitation from visitors (%)
Tourism Region A (e.g. North Coast)	210	522	\$25,418	50%

In the Tourism Region A, approximately 210 ('000) Visitors undertook Westpac domestic card transactions in the month (e.g. June 2019). Visitors accounted for 50% of the card transactions spend in the Tourism Region in the month. These Visitors made over 522 ('000) transactions, with a total value of over \$25m worth of expenditure for the month.

Definitions

- Visitation Count: the total number of de-identified Westpac domestic cardholders who transacted at least once in the region across the reporting period.
- Visitors: the number of de-identified Westpac domestic cardholders who reside greater than 50km from the region.
- Volume Transactions: the total number of transactions made by de-identified Westpac domestic cardholders in the region across the reporting period.
- Value Spend: the total value of transactions made by de-identified Westpac domestic cardholders in the region across the reporting period.
- De-identified means that the information does not identify an individual.

How to interpret tables

The tables below are to be used for explanatory purposes only.

Section 1: Regional Summary Continued...

Interstate Visitation Spend By Tourism Region - A breakdown of expenditure for each NSW tourism region based on the domestic visitors state of origin.

NSW Tourism Region	New South Wales	Victoria	Queensland	South Australia	Western Australia	Tasmania	Northern Territory	Australian Capital Territory
Tourism Region A	81%	5%	6%	1%	4%	0%	0%	2%
Tourism Region B	71%	7%	6%	3%	1%	0%	0%	10%

81% of expenditure by Visitors to Tourism Region A was made by NSW residents during the month.

Definitions

- Value Spend: the total value of transactions made by de-identified Westpac domestic cardholders in the region across the reporting period.
- Visitors: the number of de-identified Westpac domestic cardholder(s) who reside greater than 50km from the region.
- De-identified means that the information does not identify an individual.

How to interpret tables

The tables below are to be used for explanatory purposes only.

Section 2: For Every \$100 Spent

Tourism Satellite Account Expenditure - A break down for every \$100 spent by visitors by service type

Tourism Satellite Account	Sydney Value Spend	Regional NSW Average Value Spend
Accommodation and accommodation services for visitors	\$2.10	\$6.25
Air passenger transport and transport services	\$0.03	\$0.01
Cultural services and activities	\$0.05	\$0.46

\$6.25 for every \$100 of Visitor spend is spent on accommodation or accommodation services within regional NSW Tourism Regions. This is the average for all Tourism Regions except Sydney.

Definitions

- Value Spend: the dollar amount per category for every \$100 spent by de-identified Westpac domestic cardholders in the region across the reporting period.
- Visitors: the number of de-identified Westpac domestic cardholders who reside greater than 50km from the region.
- Tourism Satellite Accounts: a grouping of tourism related expenditure by tourism service type.
- Sydney Value Spend: the dollar amount per service type for every \$100 spent in the Sydney region by de-identified Westpac domestic cardholders across the reporting period.
- Regional NSW Average Value Spend: the dollar amount per service type for every \$100 spent in the regions by de-identified Westpac domestic cardholders across the reporting period (averaged across all non-Sydney regions).
- De-identified means that the information does not identify an individual.

How to interpret tables

- The data does not represent everyone who made a transaction in NSW.
- The data does not contain cash transactions and it is restricted to Australian residents only
- The data does not differentiate between single purchases and purchases made on behalf of a group so cannot be used to calculate the total number of visitors in an area.
- The data has been weighted against Australian Bureau of Statistics population estimates, but there may be differences in how Westpac classifies demographics. Similarly, Westpac may classify tourism related spend differently to the tourism satellite accounts.
